Action Runner

Arch:

- Docker Containers with APIs
- Building Blocks to orchestrate in YAML
  - ↳ pre-made, some enabled by default (e.g. healthcheck)
  - ↳ option to hide from main list

sim1.yml

```
- name: Simulate XY
  failed-step: skip
  export-artifacts:
        [a, b, d]

steps:

  - name: a
    action: SimReal
```
